ABOUT ME

As a very passionate web developer, I put my hands in typing codes of and designing different assets since the age of 16. Today, I have my own job and proud of it at ATIS Shpk where I develop different purpose web applications. And I do start it from scratch, mostly working alone or in teams. Yet, designing tools remain my best friends: Photoshop, Illustrator, InDesign and After Effects - we spend most of the time together and we know each-other closely.

WORK EXPERIENCE

Jun 2017 - current   Web Developer
ATIS Shpk
Currently, I am working as a frontend developer. My job here is to build responsive web applications primarily with Twitter Bootstrap using jQuery or ReactJS.

Dec 2015 – Jun 2017   Web Developer
Internet People GmbH
I have worked as a web developer at InternetPeople GmbH where I have developed different purpose websites mostly powered by Typo3 and Wordpress.

Jul 2015 - Jan 2016   Network Technician
NetSysCom Sh.p.k
I have worked as a network administrator in an ISP that operates mainly in the areas of Lezha and Shkodra.

EDUCATION

2012 – 2015   Bachelor degree.
University of Shkodra 'Luigj Gurakuqi'
I have been studying at the Faculty of Natural Sciences for computer science.

2008 – 2012   High School
Middle School Shenkoll Lezhe
